

Harrington Blue & Partners and Atlas Global Announce Strategic Partnership to Drive Disruptive Investment and Diversification

London, UK & Monaco – March 24, 2025 – Harrington Blue & Partners (www.harringtonblue.co.uk), a premier advisory firm specializing in high-value investments and strategic growth, is pleased to announce a strategic partnership with Atlas Global (<https://www.atlasglob.com>), a leading investment firm with a strong presence across emerging markets. This collaboration marks a significant milestone in both companies' missions to expand global reach, drive disruptive investment strategies, and diversify portfolios in key international sectors.

Through this partnership, Harrington Blue & Partners and Atlas Global will leverage their combined expertise to identify and execute high-impact investment opportunities across multiple industries, including technology, infrastructure, energy, and emerging markets. With Harrington Blue & Partners' extensive network across premium and institutional investments and Atlas Global's innovative approach to asset allocation and capital deployment, this alliance is set to redefine global investment strategies.

“Our partnership with Atlas Global aligns perfectly with our vision of unlocking dynamic investment opportunities for our clients,” said Susana Ecclestone, CEO at Harrington Blue & Partners. “Together, we will create a framework that enables capital to flow into transformative projects, ensuring sustainable growth and long-term value.”

Atlas Global's Managing Director, Alexis Legrand, echoed the sentiment: “This partnership embodies our commitment to channel capital toward strategic, forward-thinking ventures. By joining forces with Harrington Blue & Partners, we aim to unlock long-term value and reshape the future of global investment.”

With a shared commitment to innovation, financial excellence, and global expansion, the Harrington Blue & Partners-Atlas Global partnership poised to redefine the investment landscape by creating new pathways for growth and diversification.
